Gulbahar, Haji Javed
Town, Peshawar City

farhanbaber965@gmail.com

ABOUT ME

I specialize in building high-performance, scalable, and fully responsive web applications using React.js, Node.js, Express, and MongoDB. My development philosophy focuses on bridging the gap between robust backend architecture and flawless frontend design. Beyond core development, I have a deep passion for crafting immersive, interactive user experiences. By leveraging advanced animation libraries like GSAP (GreenSock) and Locomotive Scroll, I transform static layouts into engaging digital journeys. I back my technical expertise with polished soft skills, clear communication, and an adaptable mindset, ensuring seamless collaboration within cross-functional teams and smooth project delivery.

EDUCATION

2010-2025

Matriculation

Foundational Education

I have recently completed my Matriculation (Secondary School Certificate) from [Your School Name, Optional] between 2010 and 2025. During this time, I developed a strong foundation in logical thinking, computer fundamentals, and mathematics, which inspired my passion for programming and web development. This academic background has played a vital role in shaping my interest in technology and continues to fuel my growth as a developer.

2025-2027

Inter-Mediate

(Pre-Engineering)

Intermediate Qualification

I have successfully completed my Intermediate in Pre-Engineering, where I developed strong analytical and problem-solving skills in subjects like Mathematics, Physics, and Chemistry. This academic training has helped me build a logical and technical mindset, which plays a crucial role in my approach as a developer and in understanding core programming concepts.

EXPERIENCE

2024-2026

Smit (Saylani Mass IT Training)

WEB AND APP DEVELOPMENT

Successfully completed a comprehensive Web & App Development course from Saylani Mass IT Training (SMIT). Throughout the training, I gained hands-on experience in modern front-end and back-end technologies, and mastered advanced concepts in responsive design, JavaScript, React, and professional development practices. This program played a vital role in sharpening my technical skills and preparing me for real-world development challenges.

2025 - 2026

Code Alpha | Certura | Software Companies (Student Intern)

Hands-on Training Experience

Successfully completed a virtual internship with CodeAlpha, where I worked on real-world web development tasks and explored advanced technical concepts. This internship enhanced my problem-solving skills, code quality, and understanding of collaborative software development. I gained hands-on experience in front-end technologies, GitHub workflows, and project deployment, which significantly contributed to my practical and professional growth.

SKILLS

- Javascript | React.js
- Express.js | MongoDB
- Web Development & web designing
- Backend Developer
- Software Development
- IT Consulting & AI Anthusiast
- Sof Skills Development
